KEYNOTE DOWSER

MARTY LUCAS

Dowsing: The Magic is in the Questions

Ask the wrong question and you will always get the wrong answer. I dows every day; not just any questions, but better and better questions.

When a client that needs my help, the questions I ask, can make all the difference. Perhaps some of these questions will be useful for you. Some may seem ridiculous, but as you follow my train of thought, you will see why I ask them.

As each question closes in on truth, our boundaries expand and we can start to understand what is possible. The limitations in our lives are the ones we accept. Let's see what we can do about dissolving them.

Bring your dowsing tools and let's see where the answers lead....

Marty Lucas is a full-time radionic teacher, practitioner and researcher with over 20yrs experience. He is a former ASD Board Member and currently serves on the Convention Committee.

STEPPING UP FROM FEAR TO A POWERFUL GROUP CONSCIOUSNESS

Fear and fear mongers have constantly been present in our lives and environments since late 2019.

How much do we understand the fear itself so that we can heal it? Without understanding how to deal with fear, it is impossible to empower ourselves and overcome it.

The fastest and most successful option is using Therapeutic Pendulums. When we conquer fear, we can easier connect with others and find comfort in the power of the group!

Let us learn, talk and practice how to use the Therapeutic Pendulums to:

Scan the body to precisely locate the areas of our body the most influenced by fear

Define the type of damage done by fear

Heal by removing the fear and reinstalling socially healthy level of energy

Fear keeps us away from others, isolates us, and allows the fear level to grow and devastate our emotions-brain-body connection.

When we lower the fear level and connect with others, we will create a sense of togetherness, support and emotional stability.

Let us learn how to do it with Dowsing!

THE INVISIBLE RAINBOW

Some may wonder if things exist if we cannot see or feel them. We, as dowzers, know that there are different energies which do exist. Yes, we do not often talk about the EMF's (electromagnetic frequencies) which bombard us all of the time. It could be from radio and TV waves, or cell phone towers. Now it includes 5G transmitters on the ground and from many satellites. What is the effect on us and on animals? Do you think that you have tinnitus? Have you seen as many birds of bees recently? Are birds appearing in places they aren't normally seen? What does the research say? This presentation was well received at the Temple of Sakkara Conference last summer. Come and learn the information that they learned.

BRIDGE MATTER AND SPIRIT WITH DOWSING

It's funny how different our inner and outer lives can be. In my inner life I travel through time, space and the Multiverse finding answers to questions and resolving imbalances. In my outer life I am cleaning toilets, chopping onions for dinner and worrying about my children. We are all simultaneously embodying both our Human and Spiritual natures. We all have Earth Missions (to be good people and to look after each other in this lifetime) and Soul Missions (to create resonant beneficial frequencies across space and time.)

How do we know what to focus on? How do we forgive ourselves for making mistakes? How do we recognize Divine Truth? How do we know if the messages we receive are really from the Creator? I don't have all the answers to these questions, but perhaps I can help you find your own balance between Matter and Spirit so you can create the life you want.

BUD: BLIND UNBIASED DOWSING

Dowsters have long been plagued by having their personal preferences affect their dowsing results. Often one coordinates with another person who asks the question silently while the dowster gets results. Sometimes that person has preferences that affect results. Now I have developed a powerful new technique that eliminates that contamination affect. It is done with a carefully constructed coordination of dice, dowsing, random numbers, a spreadsheet and statistical testing. A single dowster can perform the technique and measure the statistical significance of the result. I have also developed a smart-phone app to support the method.

SHELLEY DARLING – The daughter of an intrepid world circumnavigator, Shelley Darling, learned to follow her dreams early in life. Shelley is the published author of Songline of the Heart: A Navigator's guide to resurrecting your Heart, Home, and Habitat. Founder of Evolutionary Dowsing, whole systems, transformational journey, Shelley speaks to Dowsing as an ancient science and evolutionary tool that creates a "quickenning" in people's experience.

Shelley's dedication to Love as a practical pathway, combined with her understanding of Ancient Wisdom, Heart Resonance, Dowsing, and Conscious Evolution, delivers a dynamic whole-systems model for lasting change. Shelley's joy and life purpose are restoring resonance for heart, home, and humanity.

SHAMANIC DOWSING

Shamanic Dowsing is a class combining the technology of dowsing, using the pendulum to measure emotions, spirit, soul aspects, past/multidimensional lives, with the knowledge of the Shaman for healing the emotional body, the soul, and spirit. I am very much interested in what is going on in the soul's and emotional body's unseen realms, how to heal soul fragments, negative emotions, the three shamanic worlds where humans exist. Our multidimensional selves. These are realms of healing I've learned by shamanic training that are known and understood by shamans: Hawaiian, Cherokee, Abenaki, Mayan and Lakota. The soul and the emotional body cannot be seen by our ordinary eyes, yet the symptoms of trouble are usually obvious. By the third eye and by dowsing the soul and emotional body problems may be detected and healed. I will present the aspects I look at for healing these areas and provide examples.

TOOLS FOR RELATIONSHIPS

Dowsing is a powerful tool that can be used to access your intuition. Dowsing can help you determine to pursue an intimate relationship with a certain person, keep it a friendship or may show that it is best to walk away and don't look back. When emotions are involved, it can be hard to determine what is for the highest good. Dowsing can reveal the information that you need to make decisions. There will be a little numerology and astrology to add to your toolbox for making relationship decisions. This is a fun, hands on workshop!

GRAHAME GARDNER - Grahame (<https://westerngeomancy.org>) has been dowsing professionally for over 20 years

and specializes mostly in geopathic stress work and electromagnetic surveying of properties, and the design and creation of sacred spaces. He is a Professional Member and Past President of the British Society of Dowsers and a regular presenter and workshop leader at international conferences. Grahame is also a member of the Canadian and American dowsing societies, a founder member of The Geomancy Group, and is co-chair (with Susan Collins) of International Dowsers, dedicated to fostering greater links between British and North American dowsing techniques.

DOWSING: MAGICK FOR THE 21ST CENTURY

In recent years, dowsing has undergone a radical change. From being a passive tool used to detect tangible targets like water, utilities and archaeological remains, today's dowsers now actively work with the manipulation and transformation of intangible energies. Dowsing has become a shamanic technology – it's the new magic. But can the old inform the new? In this fascinating talk, we compare definitions of dowsing with those of traditional magick, look at some theory behind the dowsing response before investigating the nature of consciousness itself and asking, 'what is the dowsing source? 'How can we best manifest intention?'

WILLIAM GEE - Dowsing is a powerful tool that can be used to access your intuition. Dowsing can help you

determine to pursue an intimate relationship with a certain person, keep it a friendship or may show that it is best to walk away and don't look back. When emotions are involved, it can be hard to determine what is for the highest good. Dowsing can reveal the information that you need to make decisions. YOUR PAST LIFE CONNECTION

What do we know about our past lives? Perhaps you have had some interesting experiences or coincidences that you aren't able to explain. Perhaps you are just curious. The truth is, we have a lot we can learn about ourselves by connecting to our past lives. Since all time and space exists in a 4-second interval, our past life selves are just as alive and dealing with life's struggles as we are here right now in our own lives. In fact, the phrase "past life" assumes a distant disconnection when in fact, all of our incarnational experiences are here, simply waiting for us to access. In this talk, we

will discuss ways in which you can access your multi-incarnational experiences, and how you can help them, while you help yourself!

JERRY GIN - Jerry Gin has spent more than 40 years in the pharmaceutical, diagnostic, laboratory medicine, and biotechnology industries (founded ChemTrak, Oculex Pharmaceuticals, Livionex, Nuvora, and Visionex). Ph.D. in Biochemistry - UC Berkeley, MBA - Loyola, BS -U of Ariz.

UNDERSTANDING AND WORKING WITH SUBTLE ENERGIES

Through dowsing, one can detect and measure the strength of subtle energies. These subtle energies can be moved, copied and used to carry out various functions such as activating water, producing harmony, and used as an aid in healing. You know some of these subtle energies such as BG3, 3-6-9, and the vibrational frequencies associated with almost any object. Magnets, monatomic elements, and unique shapes can also produce these energies. Techniques can be used to magnify the levels of these energies. By working with these energies, you learn the power of your consciousness and begin to understand your true nature, which will also be discussed.

MARY HARDY – Mary Hardy is a Master Dowser, an author and a Crown Diamond with Young Living Essential Oils. HEALING THE PLANET WITH PYRAMID ENERGY

The Great Pyramid is built like an orgone generator. Repeating layers of stone, then a layer of sand, creates an orgone frequency. Orgone frequency, according to Dr. Wilhelm Reich, activates the life-force energy in the body. The layering effect of our pyramid activated all the pyramids around the world into orgone generators. The Templars built the cathedrals to generate this frequency. They called them Notre Dames (our lady). The Mary’s were trained to use their heart chakras to activate the cathedrals. Now we can do the Holy Grail Vortex to activate the pyramids and cathedrals all over the world to create the life-force energy to strengthen the human body.

By saying the Holy Grail Vortex, this activates the pyramids and cathedrals into a world-wide grid of orgone energy. Since 2020, I believe this frequency has lessened the death toll from covid.

MY BODY, MY ANCESTORS: HOW TO HEAL PAST 10 GENERATIONAL PATTERNS

We are living in the most challenging situation collectively in the evolution under this present civilization. The pandemic beginning in 2020 changed our life unlike any others before. And we are collectively being threatened by the very nature of our genetically stored and bloodline-contained unresolved subconscious or and unconscious memories. Due to the breath-through of time-code inside the frequency or duration of a second, the nano-second environment gives the chance for both the sickness to foster and viral triggers such as Covid 19. Thus healing and dissolving those subconscious and unconscious memories become the real activation and awakening practice, if not so, we will die with the same dying and frozen memories like our ancestors had.

This is why the moment of conception; our incarnating spirit will receive the results of three generational accumulations among 14 ancestors. This is the place to go! This is what we must do!

These things include proper preparation, clearing away detrimental energies that include mass consciousness, building energy to project focused intention, putting your mind in neutral, letting go of preconceived ideas or judgment, connecting to Source, writing a comprehensive list of clear & specific questions, checking that your list is complete and appropriate, checking for & clearing karma, finding & clearing root cause/s, being careful with wording, accessing internal wisdom, downloading additional Spiritual resources, etc. We will go through as many as time allows.

TAROT ARCHETYPES FOR READINGS

Tarot cards are recognized by their striking images that evoke strong emotions. These images are archetypes that represent common human experiences or universal principles. The Rider Waite Tarot deck was designed as an aid to meditation and divination. Every symbol, color, position, or expression has meaning. If you are familiar with Astrology, Numerology, Kabbalah, or ancient cultures, many of the images will resonate with you. In this presentation, we will discuss how the archetypes can illuminate and inform your Tarot readings.

Hawaiian Energetics - Using the energy of the Elements

Hawaiian Energetics was created from the ancient Hawaiian traditions originally used by the Medical Kahuna. They believed that we have 3 bodies and when working with them, can help a person be healthier. As Energy Practitioners, many of us have a few healing modalities in our “tool box”. We can use Dowsing to choose the most beneficial modality to find the help we need or for a client’s needs. The ancient Hawaiians used the qualities of the elements Fire, Water, Air, and Earth to relieve pain, stress, and help to bring balance and equilibrium to those they worked with.

I began studying Hawaiian ways starting with Huna 34 years ago. Through my travels to many of the Hawaiian Islands, I've studied, apprenticed and now teach ancient Hawaiian ways including: Huna, Aloha, Ho'oponopono, Lapa'au, Lomi Lomi, and Hawaiian Energetics. I give treatments, and teach classes in Hawaiian Energetics. Those of you who know about Reiki understand energy healing. I am also a Reiki/Master teacher, and a dowser. I believe many complementary modalities are wonderful when it comes to alleviating discomfort and bringing more equilibrium to clients. There is a difference between Hawaiian Energetics and Reiki. Hawaiian Energetics can work with more specific issues using the qualities of the elements on organs, bones, muscles, etc. as well as the whole body.

THE REPTILIAN PROBLEM: GETTING FREE FROM INVISIBLE ANTAGONISTS

Behind all forms of entity invasion is an invisible world of Reptilian interference in our lives, our organizations, and our planet. Who are these beings? How can we get free from their programs of creating suffering in our lives? Dr. Stone presents the Soul Detective® protocol using dowsing to identify Reptilian invasion, ask for higher dimensional help to remove the entities, and to find and remove the markers that tag people for ongoing Reptilian invasion. Some say that humans were created from a mixture of 22 Royal Star Civilizations, including Reptilians. Perhaps we would not have survived as a species without some Reptilian DNA. But we need to rise above thinking only of physical survival and move from the Reptilian “Service to Self” programs to “Service to Others” to create a world filled with love, peace, and joy.
